Install Right Click Tools Community Edition

Last Modified on 04.16.25

Before downloading and installing Right Click Tools Community, make sure that the basic system requirements for its implementation are met.

For a guide to installing Right Click Tools for Intune, see Install Browser Extension for Right Click Tools Community Edition .

Download Right Click Tools Community

To access the Right Click Tools Community Edition:

1. If you don't already have your free Recast Software account, create it by completing the form at recastsoftware.com/free-tool-download. In response, you can expect to receive an email from registration@recastsoftware.com containing a link to verify your account.

2. Log into the Recast Portal with your Recast Software credentials.

3. Click the blue Download icon for the Right Click Tools Community Edition.

TIP: If you are installing Right Click Tools on a Configuration Manager server that is not connected to the internet, also click the cloud icon to download the associated license file. Save the license file to a location accessible from the device with no internet.

Run the Right Click Tools Installer

To install the Right Click Tools console extension, double-click the .msi file to open the Recast Console Extension installer you downloaded from the Recast Portal. Make sure any Configuration Manager console installed on the device is closed before opening the installer.

Choose Installation Type

To choose a Right Click Tools installation type, click **Right Click Tools Community**. Then click **Next**.

Add Configuration Manager Site Information

If you are installing Right Click Tools in order to use the browser extension on a device with no ConfigMgr console installed, you will need to add site information for the Configuration Manager console in your environment.

To add ConfigMgr site information:

1. Enter the **SMS Provider** and **Site Code**.
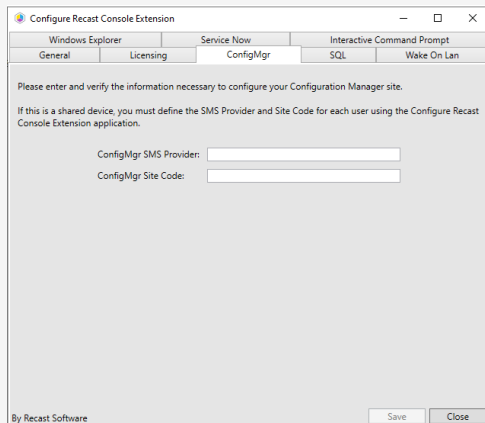

2. Click **Test ConfigMgr Connection**.

Add ConfigMgr Site Information After Installing Right Click Tools

On the **Configuration Manager Site Information** page, you can choose to **Skip Site Configuration** and add the SMS Provider and Site Code after the installation completes.

NOTE: You'll need to provide those details before you can run any Right Click Tools action that requires ConfigMgr site information.

To add ConfigMgr site information after Right Click Tools installation:

1. Open the Windows Start menu and select the **Configure Recast Console Extension** application.

2. On the ConfigMgr tab, add the **SMS Provider** and **Site Code**. If Right Click Tools is installed on a shared device, you'll need to add ConfigMgr site information for each user of the Configure Recast Console Extension application.

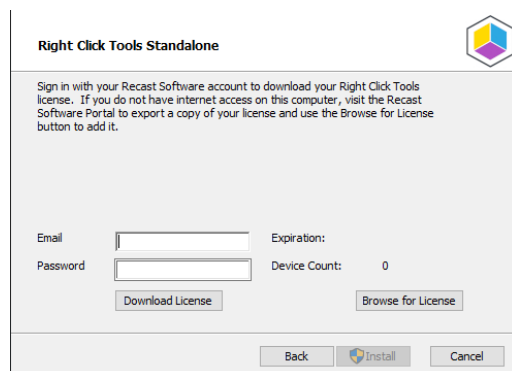

Import License

To download your Recast license:

1. Sign into your Recast Software account by entering your Recast Portal **Email** address and **Password**.

2. Click **Download License**. Your license's **Expiration** and **Device Count** details will appear in the right-hand column.

TIP: If the device on which you are installing Right Click Tools does not have internet access, click **Browse for License** to search the local filesystem for a license file downloaded from the Recast Portal.

Initiate Installation

Once you have filled in the necessary license information, click **Install**. When installation completes, you can click the link for Right Click Tools browser extension installation instructions , or click **Finish** to close the installer.
