

## Active Directory Cleanup Web Dashboard Trend

Last Modified on 2026-06-08

The Active Directory Cleanup Web Dashboard Trend shows AD Cleanup over a set period of time.

### Prerequisites

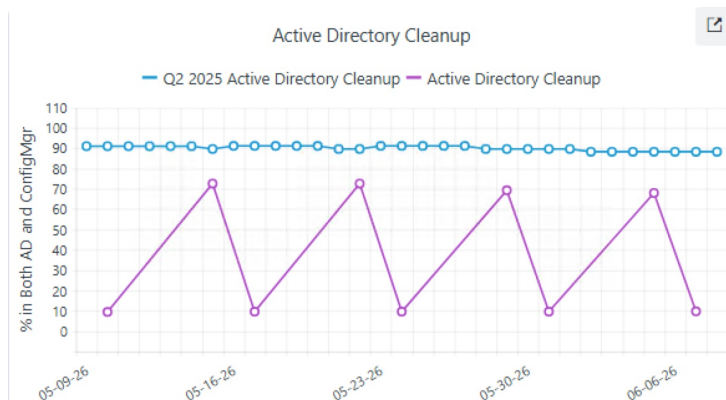

Web Dashboards Trends require a [Recast Proxy](#) in your environment that is allowed to read from Active Directory or Configuration Manager as required by the selected tool.

### View the AD Cleanup Trend Graph

To view trend graphs, navigate to **Dashboards > Trends** in your Recast Management Server. There's also an option to download the trend graph so that you can view it later or share it with others in your organization.

#### Compliance Status

- Compliant: Device exists in AD **and** ConfigMgr, matched by Display Name or Name
- Non-Compliant: Device exists only in AD **or** ConfigMgr

### View and Edit Trend Snapshot Schedules

You can view all the trends set up for all web dashboards by navigating to **Administration > Trends** in your Recast Management Server.

### Create a Trend Snapshot Schedule

To set a snapshot schedule:

1. In your Recast Management Server, navigate to **Dashboards > ADCleanup**.
2. Click **Create Trend**.
3. In the side panel that opens, name the trend, select or enter a start time, and choose the days when snapshots will be taken.
4. Choose the repeat interval (1 to 4 weeks).

# Recast

5. Click **Submit**.

After creating a trend, a new snapshot will appear on the ADCleanup graph at each scheduled interval.

**NOTE:** The first snapshot only shows up after the first interval has passed.

## Delete a Trend Snapshot Schedule

To delete a dashboard trend:

1. In your Recast Management Server, navigate to **Administration > Trends**.
  2. On the **Trends** page, click the Delete icon next to the trend to remove.
-
