

LAPS Web Dashboard Trend

Last Modified on 2026-06-08

The LAPS Web Dashboard Trend shows LAPS compliance over a set period of time.

Prerequisites

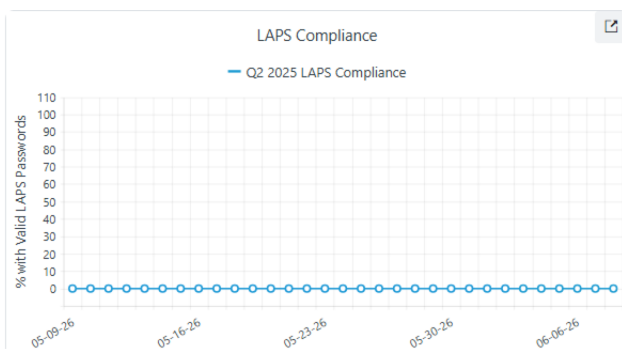

Web Dashboards Trends require a [Recast Proxy](#) in your environment that is allowed to Active Directory or ConfigMgr as required by the selected tool.

View the LAPS Trend Graph

To view trend graphs, navigate to **Dashboards > Trends** in your Recast Management Server. There's also an option to download the trend graph so that you can view it later or share it with others in your organization.

Compliance Status

- Compliant: Device has LAPS client installed (x64 or x86) **and** has a password expiration date in AD that is more than 30 days out from the current date
- Non-Compliant: Device is missing LAPS client **or** there is no password expiry date in AD **or** the password expired more than 30 days ago

View All Trend Snapshot Schedules

You can view all the trends set up for all web dashboards by navigating to **Administration > Trends** in your Recast Management Server.

Create a Trend Snapshot Schedule

To set a snapshot schedule:

1. In your Recast Management Server, navigate to **Dashboards > LAPS**.
2. Click **Create Trend**.
3. In the side panel that opens, name the trend, select or enter a start time, and choose the days when snapshots will be taken.
4. Choose the repeat interval (1 to 4 weeks).
5. Click **Submit**.

Recast

After creating a trend, a new snapshot will appear on the LAPS Trend graph at each scheduled interval.

NOTE: The first snapshot only shows up after the first interval has passed.

Delete a Trend Snapshot Schedule

To delete a dashboard trend:

1. In your Recast Management Server, navigate to **Administration > Trends**.
 2. On the **Trends** page, click the Delete icon next to the trend to remove.
-
