

Software Updates Web Dashboard Trend

Last Modified on 02.21.23

The Software Updates Web Dashboard Trend shows software update compliance over a set period of time.

Prerequisites

This Dashboard Trend requires a [Recast Proxy](#) in your environment that is allowed to read Active Directory or ConfigMgr as required by the selected tool.

View and Edit Trend Snapshot Schedules

You can view and edit all the trends set up for all web dashboards by navigating to **Administration > Trends** in your Recast Management Server.

Create a Trend Snapshot Schedule

To set a snapshot schedule:

1. In your Recast Management Server, navigate to **Dashboards > Software Updates**.
2. Click **Create Trend**.
3. In the side panel that opens, name the trend, select or enter a start time, and choose the days when snapshots will be taken.
4. Choose the repeat interval (1 to 4 weeks).
5. Click **Submit**.

After creating a trend, a new snapshot will appear on the LAPS Trend graph at each scheduled interval.

NOTE: The first snapshot only shows up after the first interval has passed.

View Trend Graphs

To view all trend graphs, navigate to **Dashboards > Trends** in your Recast Management Server.

You can download the trend graph to view it later or share it with others in your organization.

Delete a Trend Snapshot Schedule

To delete a dashboard trend:

1. In your Recast Management Server, navigate to **Administration > Trends**.
2. On the **Trends** page, click the Delete icon next to the trend to remove.
