

# Restart SMS Agent Host Service

Last Modified on 05.06.25

The **Restart SMS Agent Host Service** tool lets a console user restart the ConfigMgr client on a device. This tool can be run on single devices, multi-selected devices, or with a [similar tool designed to be run on a device collection](#).

This tool uses [Remote WMI](#).

To run this tool:

1. Right-click on a device.
2. Select **Right Click Tools** > **Client Tools** > **Restart SMS Agent Host Service**.

Running the action kicks off the restart automatically.

## Recast Permissions

ConfigMgrClient Plugin	RestartSMSAgentHostService permission
