

# Restart SMS Agent Host Service

Last Modified on 11.26.24

The **Restart SMS Agent Host Service** tool lets a console user restart the ConfigMgr client on a device. This tool can be run on single devices, multi-selected devices, or with a [similar tool designed to be run on a device collection](#).

This tool uses [Remote WMI](#).

To run this tool:

1. In your Configuration Manager console, right-click on a device.
2. Click **Right Click Tools > Client Tools > Restart SMS Agent Host Service**.

Running the action kicks off the restart automatically.

## Recast Permissions

ConfigMgrClient Plugin	RestartSMSAgentHostService permission
