Recast

Delete Device(s) from ConfigMgr

Last Modified on 01.06.26

The **Delete Device(s) from ConfigMgr** tool wipes the history of the device from Configuration Manager by deleting the device from the ConfigMgr database. This tool can be run on single devices and multi-selected devices.

> ℹ **This tool does not uninstall the ConfigMgr Client.**

To run the tool:

1. Right-click on a device.

2. Select **Right Click Tools** > **Console Tools** > **Delete Device(s) from ConfigMgr**.

3. Confirm that you want to delete the device.
