

Interactive Command Prompt

Last Modified on 03.15.23

The **Interactive Command Prompt** tool opens a command prompt on the remote device.

To run the tool:

1. In your Configuration Manager console, right-click on a device.
2. Click **Right Click Tools > Console Tools > Interactive Command Prompt**.

Recast Permissions

Local Actions	Interactive Command Prompt
---------------	----------------------------

Microsoft Permissions

This action runs using the credentials of the user signed into the Configuration Manager. That user requires administrator permissions on the remote device. Permissions cannot be elevated with Recast Agent or Recast Proxy.
