

# Open Regedit

Last Modified on 05.06.25

The **Open Regedit** tool opens the Registry Editor and connects to the remote device.

To run the tool:

1. Right-click on a device.
2. Select **Right Click Tools** > **Console Tools** > **Open Regedit**.

## Recast Permissions

InstalledSoftware plugin	OpenRegedit permission
--------------------------	------------------------

## Microsoft Permissions

- This action runs using the credentials of the user signed into the Configuration Manager. That user requires administrator permissions on the remote device. Permissions cannot be elevated with Recast Agent or Recast Proxy.
- Requires that the [remote registry service](#) be enabled.
