

Refresh Updates Compliance State — Client Tool on Collection

Last Modified on 05.06.25

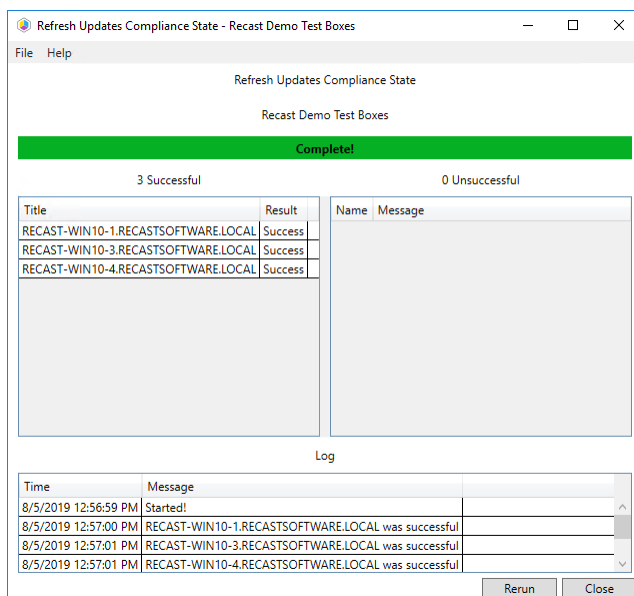

The **Refresh Updates Compliance State** tool refreshes the update compliance state of a device in ConfigMgr.

This tool can be run on device collections, or with a [similar tool designed for single and multi-selected tools](#).

To run the tool:

1. Right-click on a device collection.
2. Select **Right Click Tools > Client Tools on Collection > Refresh Updates Compliance State**.

The window that opens displays progress and completion according to success.

Recast Permissions

ConfigMgr Client	Refresh Updates Compliance State
------------------	----------------------------------
