

Restart SMS Agent Host Service — Client Tool on Collection

Last Modified on 12.22.25

The **Restart SMS Agent Host Service** tool restarts the ConfigMgr Client on a device.

This tool can be run on device collections, or with [asimilar tool](#) designed for single and multi-selected tools

To run the tool:

1. Right-click on a device collection.
2. Select **Right Click Tools > Client Tools on Collection > Restart SMS Agent Host Service**.

When the action is run, it kicks off the restart automatically, displaying a progress bar and status message until either a successful completion or failure message.
