Restart SMS Agent Host Service — Client Tool on Collection

Last Modified on 06.20.23

The **Restart SMS Agent Host Service** tool restarts the ConfigMgr Client on a device.

This tool can be run on device collections, or with a similar tool designed for single and multi-selected tools .

To run the tool:

1. In your Configuration Manager console, right-click on a device collection.

2. Click **Right Click Tools** > **Client Tools on Collection** > **Restart SMS Agent Host Service**.

When the action is run, it kicks off the restart automatically, displaying a progress bar and status message until either a successful completion or failure message.

Recast Permissions

ConfigMgr	SMSAgentHostService

Microsoft Permissions

- Requires administrator permission on the remote device.
- If using a Recast Management Server with a proxy, the service account needs administrator permission on the remote device.
- This tool requires Remote WMI access.
