Send Notification — Console Tool on Collection
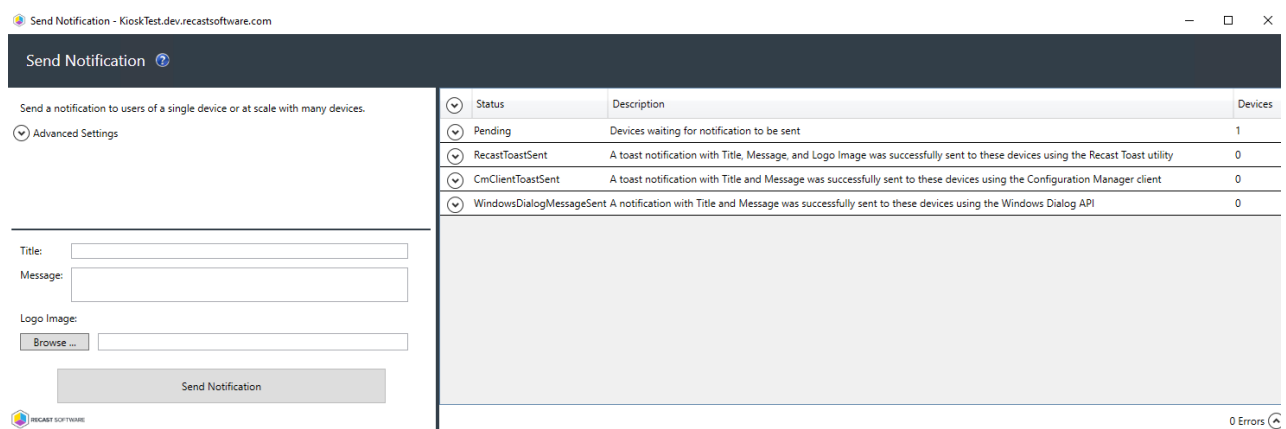

The **Send Notification** tool sends a custom notification to a device.

This tool can be run on device collections. A similar tool is designed for single or multi-selected devices.
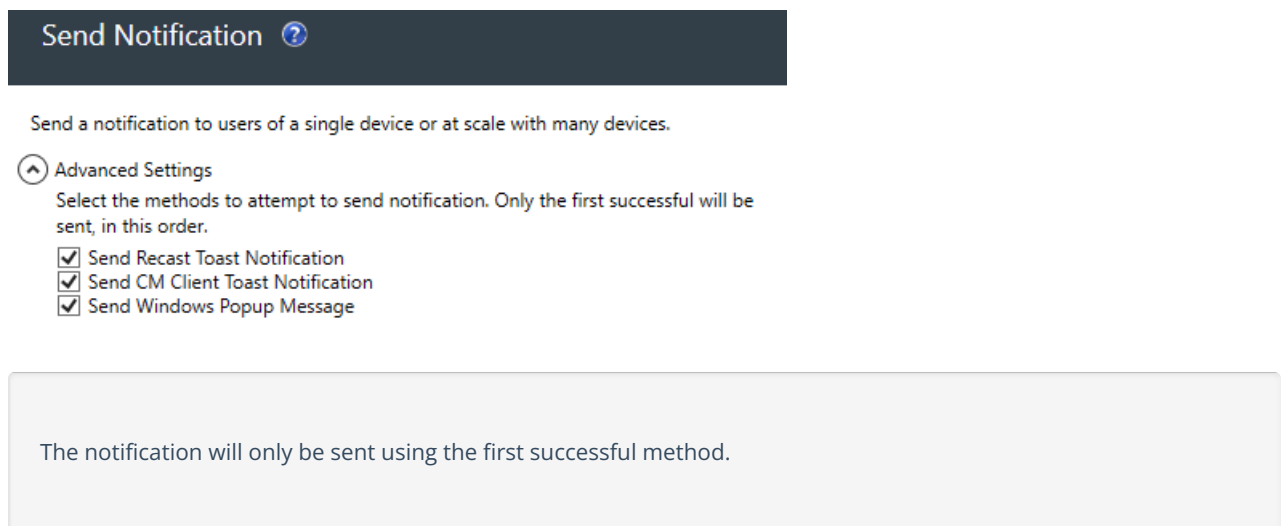

To run the tool:

1. In your Configuration Manager console, right-click on a device collection.

2. Click **Right Click Tools** > **Console Tools on Collection** > **Send Notification**.

The **Send Notification** window will open.

3. Expand **Advanced Settings** to choose the type(s) of notification to send.

Three available methods: Recast Toast Notification, Configuration Manager Client Toast Notification, Windows Popup Message.

4. Add a **Logo Image** in PNG, JPG, or BMP format to send with your Recast Toast notification (optional).

5. Click **Send Notification**.
