

List of Computers by Mapped Printer

Last Modified on 03.31.23

This report returns a list of mapped printers according to printer description. It will be able to tell you to which port the printer is attached. Knowing this information is useful for various reasons, including ensuring that there is sufficient ink on hand if a number of computers use a selected printer, and determining if any Computers need an updated printer driver. From this report, you can drill through to *Computer Mapped Printer Details*.
