# Update Service Account/Password for Recast Proxy

Last Modified on 06.14.23

To update your service account or password:

1. Open **Services** on the device where the proxy is installed.

2. Right-click **Recast Proxy Service** and select **Properties**.

3. On the **Log On** tab, update the account or password and click **Apply**.

4. **Restart** the Recast Proxy Service.
