

Assign a Read Only Access Role

Last Modified on 11.09.23

Read-only access lets users view Right Click Tools actions, console dashboards, web dashboards and trends, and the audit log, without the ability to make changes to any devices. Users given this role will not see permissions, routes, or scopes in the Recast Management Server interface. For the full permission list, see below.

You can add a permissions template to Recast Management Server by running a simple SQL query against your RecastManagementServerDB.

Template (updated November 9, 2023): [RMS Read-Only Role Query.txt](#) 

Video Walkthrough

Read-Only Role Permission List

Active Directory	Active Directory Cleanup Tool
	Get AD Computer
	Get AD Computer With LAPS Data
	Get AD Computers
	Get AD Computers BitLocker Status
	Get AD Computers In Group
	Get AD Containers
	Get AD Group

	Get AD Groups
	Get AD Groups In Group
	Get AD OUs
	Get AD User
	Get AD Users
	Get AD Users In Group
	Get Account Group Membership
	Get BitLocker Recovery Data
	Get Group Members
	Get Primary Group For Account
	Is Account Enabled
	Search AD Computers
	Search AD Groups
	Search AD Users
Administration	Get All Settings
