Builder Suggestions

Last Modified on 11.03.23

Is there an action that you wish you had in Recast Builder?

Yes? Awesome! Feel free to submit a Builder suggestion. We can't guarantee that we'll be able to create every Builder action requested, but we'll do our best to create the action for you, if possible.

Email your Builder suggestions directly to support@recastsoftware.com.

Disclaimer: Builder actions and pre-built workflows are provided on the basis that they can be edited, changed, and shared, but not sold. While every available effort has been made to be sure they work well and do what was intended, we can't anticipate the requirements of every conceivable Configuration Manager environment, so download/use at your own risk—no guarantees of function, support, or that they won't break something. As with everything, test first.
