

Additional Hardware Inventory Classes with Recast Agent

Last Modified on 08.18.25

With a Right Click Tools Insights license, the [Recast Agent](#) creates the following classes on each device where it is installed:

NOTE: These items be inventoried after the Recast Agent is deployed and a hardware inventory cycle has completed.

- El Application
- El LocalGroup
- El LocalUser
- El Monitor
- El Monitor Resolution
- El ODBCDrivers
- El Share
- El User Mapped Drives
- El User Mapped Printers
- El User Programs
- El Database
- El SQL
- El ODBC
- El ODBC User
- El Packages
- El Share Permissions
- El Docking Station
