Additional Hardware Inventory Classes with Recast Agent

With an Endpoint Insights license, the Recast Agent creates the following classes on each device where it is installed:

NOTE: These items will not be inventoried until the agent is deployed and a hardware inventory cycle has completed.

- EI Application
- EI LocalGroup
- EI LocalUser
- EI Monitor
- EI Monitor Resolution
- EI ODBCDrivers
- EI Share
- EI User Mapped Drives
- EI User Mapped Printers
