

Application Manager Legacy Service Termination

Last Modified on 11.20.25

If the Service is terminated, or if individual applications are removed from the Service, the Customer's content will not be deleted from the Service. On the Customer's request, the content can be anonymized to the extent it's possible. When the Service has been terminated, this content will be used in analyzing the Service and developing it. Where the Customer's content cannot be anonymized, it will be deleted.
