

Uninstall Application Manager for Intune

Last Modified on 12.03.25

To uninstall Application Manager for Intune:

1. Go to <https://am.recastsoftware.com/>.
 2. Go to **Administration** > **Services** and terminate AM for Intune.
 3. Go to **Services** > **AM for Intune** > **Administration** > **Deployment processes** and delete all the processes.
 4. Go to **Administration** > **Azure tenants** and remove the tenant(s).
 5. Go to **Enterprise applications** > **Microsoft Azure**, search for and remove the following applications:
 - Recast Azure AD Connector
 - Recast Application Manager Intune Connector
 - Recast Application Manager Intune Application Groups
-
