Collection Details

The **Collection Details** report shows all of your collections, the number of computers within each collection, and the maintenance windows for each collection.

Expanding a collection displays:

- **Maintenance Window** name.

- **Description**: Covers the date, time and frequency of maintenance

- **Duration** of the maintenance window (in minutes)

- **Type** of maintenance window, including those for All Deployments, Software Updates, or Task Sequences

- **Recurrence**: None, Daily, Weekly, Monthly

Expanding a maintenance window displays the computers in the collection. Click on a computer name to see its collection memberships and maintenance windows.

This report drills through to:

↓

Computer Collection Details: Shows what collections a computer belongs to and what maintenance windows apply to each of those collections.
