Computer Collection Details

Last Modified on 11.17.22

The **Computer Collection Details** report shows what collections a particular computer belongs to and what maintenance windows apply to each of those collections.

Expanding a collection displays:

- **Maintenance Window** name.

- **Description**: Covers the date, time and frequency of maintenance

- **Duration** of the maintenance window (in minutes)

- **Type** of maintenance window, including those for All Deployments, Software Updates, or Task Sequences

- **Recurrence**: None, Daily, Weekly, Monthly
