RECAST SOFTWARE

Licenses

Last Modified on 07.09.24

On the Licenses page, you can view and manage all of your Recast Software licenses. This is also where you'll upload new licenses.
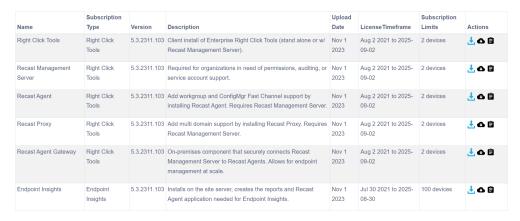

Upload Licenses to Recast Management Server

Licenses for all your Recast Software products and components are available from the Recast Portal. Downloaded licenses can then be added to the **Licenses** page in your Recast Management Server.

> As Application Manager and Privilege Manager are integrated into your Recast Management Server, you won't see Application Manager or Privilege Manager listed separately in the Recast Portal.
>
> For these Recast products, downloading your Recast Management Server license from the portal and uploading it on the **Licenses** page will activate Application Manager and/or Privilege Manager functionality in RMS.

To add Recast licenses to RMS:

1. Download or copy your Recast Software product and component licenses from the Recast Portal by clicking on the cloud icon under Actions.
