

View Recast Agents

Last Modified on 06.23.23

The Recast Management Server **Agents** page shows all agents installed in your environment, as well as their software **Version** and whether they are **Connected** and/or **Authorized**.

Recast Agents

Computer Name	Connected	Version	Authorized	Actions
CLIENT1	✓	5.0.2302.1703	✓	 

1 - 1 of 1 items

NOTE: If an authorized agent doesn't appear to be **Connected**, Recast Management Server may not currently be able to connect to it, or a certificate on the client may not be functioning properly.
