

## Find Devices Routed Via Fast Channel

Last Modified on 05.08.26

To find out which devices can be routed to via the Fast Channel:

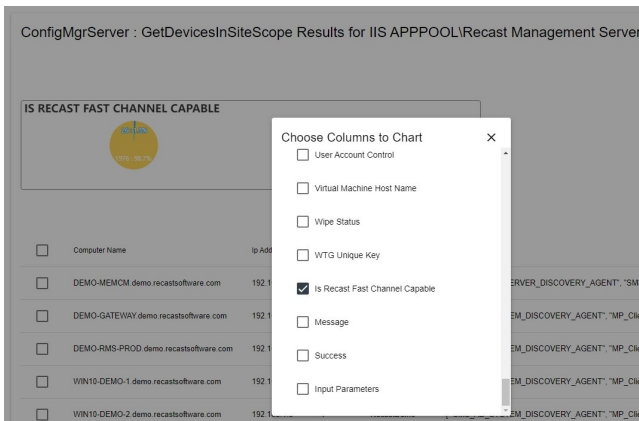

1. In the **Audit Log**, click on the **GetDevicesInCollectionScope** or **GetDevicesInSiteScope** actions.

### Audit Log

2. Click the **View Results** icon to the left of the **Proxies** button.

3. In the window that opens, select **Chart** and **Is Recast Fast Channel Capable**.

**NOTE:** If you're not seeing expected device displayed as **Is Recast Fast Channel Capable**, make sure any hardware inventory cycle has completed after installing an agent and that your **limiting rules** have repopulated.
