

## View Scheduled Tasks for Kiosks

Last Modified on 2026-06-19

The Scheduled Tasks tool shows which Kiosk Manager profiles are scheduled for deployment.

**NOTE:** You can only schedule a kiosk profile application if you have a [Recast Proxy](#).

To view scheduled tasks:

1. In your Configuration Manager console, right-click on a device or device collection.
  2. Navigate to **Kiosk Manager > Scheduled Tasks**.
