

Add a New Kiosk Profile

Last Modified on 03.08.23

To add a new kiosk profile:

1. In your Configuration Manager console, right-click on a device or device collection and select **Kiosk Manager > Kiosk Profiles > Manage Profiles**.
 2. In the **Manage Profiles** dialog, click the **New Profile (+)** button.
 3. Click on the new profile, which appears at the bottom of the list, and name it.
 4. Click **Next**.
 5. [Select Kiosk Profile Options](#).
