

Privilege Manager Activation Codes Report

Last Modified on 10.04.23

The **Activation Codes** report displays information about activation codes generated in Privilege Manager. The data is searchable and can be sorted by table heading. You can also export reports to a CSV file.

Details shown in the report:

- **Agent name**
- **Domain**
- **Activation Type**
- **Created (UTC):** Date and time when the code was created
- **Generator:** System that has elevated permissions
- **Account Activated:** Account that generated the activation code
- **Category:** Pre-defined reason category describing why permissions were elevated
- **Reason:** Description of why permissions were temporarily elevated
- **Valid for:** Duration of temporary permission elevation

Activation Codes

Agent	Domain	Activation Type	Created (UTC) ↓	Generator	Account Activated	Category	Reason	Valid for
cmbbhekl01	contoso.com	Activation Code	9/20/2023 1:23:23 PM	contoso/cmdemo	TempAdmin	Device installation	Install webcam	Single usage
