

# Privilege Manager Retrieved Passwords Report

Last Modified on 03.01.23

The **Retrieved Passwords** report displays information about the passwords retrieved by administrators in Privilege Manager.

Details shown in the report:

- **Agent name**
- **Action**
- **Time**
- **Performer**
- **Local User**

The data is searchable and can be sorted by table heading. You can also export the reports to a CSV file.
