

# Download Application Manager Integration Client

Last Modified on 08.21.23

You can download the Application Manager for MECM or WSUS installation media from the [Application Manager Portal](#).

To download the Application Manager Integration Client:

1. Sign into the [Application Manager Portal](#) and navigate to **Services > AM for MECM** or **WSUS > Downloads**.
2. Click **Download** and save the file.

See also [Find ID and Key for AM Integration Client](#).
