

# Install Right Click Tools Standalone

Last Modified on 01.16.25

## Right Click Tools Standalone Installation Workflow

Installing Right Click Tools Enterprise in Standalone mode provides a simplified implementation. For access to the product's full functionality, you can [add Recast Management Server to an existing installation of Right Click Tools Enterprise Standalone](#) at a later date.

Right Click Tools must be installed on the device where the Configuration Manager console is installed. When Right Click Tools is implemented in Standalone mode, it can run actions against devices located in the Configuration Manager console that are connected to a local network (directly or through VPN) or are connected via a Cloud Management Gateway.

Right Click Tools cannot currently run actions against devices that are only being managed using Microsoft Azure or Intune.

Recommended workflow for Right Click Tools Enterprise Standalone:

1. Make sure that the Right Click Tools [basic system requirements](#) are met.
2. Download Right Click Tools from the [Recast Portal](#). If you are installing on a Configuration Manager server that is not connected to the internet, download the associated license file.
3. [Install Right Click Tools Standalone](#).
4. [Add your license file to the Configure Recast Console Extension application](#).

## License Right Click Tools Enterprise Standalone

You can download or copy licenses for your Recast Software products and components from the Recast Portal.

To locate your Recast licenses:

1. Log into the [Recast Portal](#) using your account credentials.
2. Click on the Download Licenses icon (the cloud) in any row to download a .zip file that contains all of your Recast licenses.

**NOTE:** For the Right Click Tools Community Edition, the Download and Download Licenses icons will only appear in the

## Community Edition row.

This table includes the most recent Recast Software product and component versions for active Enterprise subscriptions, as well as the current Right Click Tools Community Edition version. Download the file containing all your Recast licenses by clicking the Download License icon in any row.

NOTE: To install or update Privilege Manager or Application Manager, download the newest Recast Management Server version.

If your product licenses are not available via the Recast Portal, contact [Recast Support](#) or your CSM to have license files sent to you.

## License Setup on a Computer With No Internet Connection

When you initially install Right Click Tools on a computer with no internet connection, make sure you download the license file to a location that is accessible from the computer with no internet access. Then use the **Browse** function in the Configure Recast Console Extension application (see below) to locate your downloaded license file.

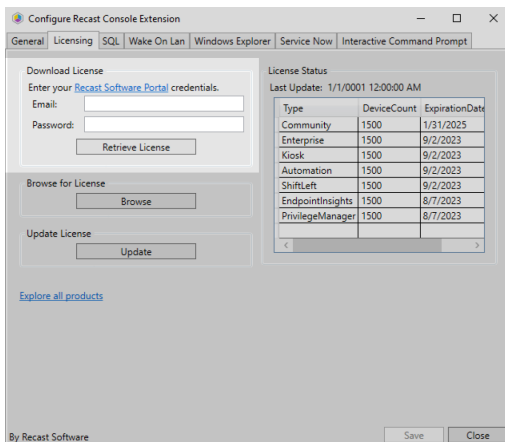

# Add License to Configure Recast Console Extension

To add your Recast license file to the Configure Recast Console Extension application:

1. In your Configuration Manager console, navigate to **Assets and Compliance > Recast Software**.
2. Click **Configure Recast** in the 'How Can We Help?' section.

The screenshot shows the Configuration Manager console interface. The left-hand navigation pane is expanded to 'Assets and Compliance' > 'Recast Software'. The main content area displays a 'Welcome to Right Click Tools' message with a 'Contact Support' button. Below this, there are sections for 'Getting Started' and 'Installation Information'. The 'Installation Information' table shows details such as Desktop Installed Version (5.2.2307.703), Server Installed Version (5.2.2307.703), Enterprise License (checked), License Expiration Date (8/7/2023), Remote Server Status (Connected), and License Org (Recast Software). At the bottom right, a 'How Can We Help?' section contains a 'Configure Recast' button, along with links for 'Documentation' and 'Enterprise Portal'.

3. Open the **Licensing** tab.
4. In the Download License section, enter your Recast Software Portal credentials.
5. Click **Retrieve License**.

**TIP:** If you downloaded your license from the [Recast Portal](#), you can retrieve it using the **Browse** function.

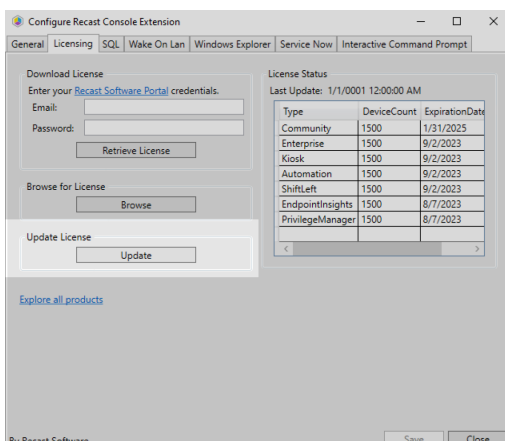

6. If the Configuration Manager console is open during license retrieval, restart the console.

## Update a License

If you manually copied the downloaded license file to `C:\ProgramData\Recast Software\Licenses`, clicking the **Update** button will load the newest license file in that folder without having to close and reopen the Configuration Manager console.

To update a license in the Configure Recast Console Extension application:

1. Open the **Licensing** tab.
2. In the Update License section, click **Update**.

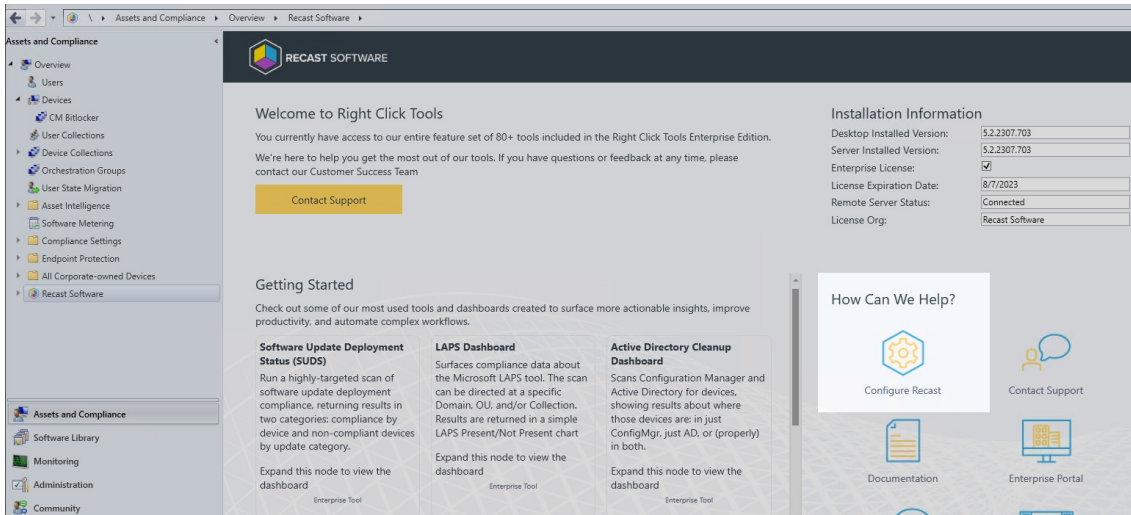

# View Right Click Tools Standalone License Details

If you're implementing Right Click Tools in standalone mode, you can view licensing details such as the expiration date, status and device count for all your Recast Software licenses in the Configure Recast Console Extension application.

To view licensing details in the Configure Recast Console Extension application:

1. In your Configuration Manager console, navigate to **Assets and Compliance** > **Recast Software**.
2. Click **Configure Recast** in the 'How Can We Help?' section.

2. Click the **Licensing** tab.
