## Install Application Manager in Downloader Mode

Last Modified on 08.25.23

You can install Application Manager in downloader mode if you only want to download third-party applications without any integration to your current management system.

To install Application Manager in downloader mode:

- 1. Download the Application Manager installer and save it to your Downloader server.
- 2. Run the installer and follow the prompts.
- 3. Open the Application Manager Integration Client from the Windows Start menu and click Next.

r Recast Application Manager Configuration Wizard	×
Welcome to Recast Application Manager!	
This configuration wizard will help you to enable software integration with Recast Application Manager. After the wizard, your deployment platform is ready and configured for third-party updates. Settings can also be modified later in the application.	
CALC APPLICATION MANAGER	
< Back Next > Ca	ancel

4. Enter your Application Manager environment-specific ID and Key. Select Login and Next.

**NOTE**: Follow these instructions to find the ID and key.

	lication Manager Configuration Wizard
	Recast Application Manager Login
	Enter credentials.
ID:	101e53-a11c-4c0b-bd24-7315f6ab7755
Key:
