RECAST SOFTWARE

# Recast Software Version 5.1.2304.1407

Last Modified on 09.27.24

Release Date: April 14, 2023

Version 5.1.2304.1407 includes bug fixes, security enhancements, and logging improvements for Endpoint Insights. For instructions on updating your software version, see our article on upgrading Endpoint Insights.

## Bug Fixes

## Endpoint Insights

- Fixes crashes of Recast.Agent.EndpointInsights.User.exe.

- Fixes product hyperlink errors on the **Microsoft Office** report.

- Fixes an issue where the **List of Computers by Dot Net Version** report would not run.

- Fixes an SQL query error that prevented some warranty information from being gathered.

- Locates the missing **Online Status of Computers by Collection** report in the Endpoint / Computer category.
