

Compliance

Last Modified on 07.31.23

On the **Remote Software Center - Compliance** tab, you can view and evaluate compliance policies available for your devices.

Select a compliance policy and click **Evaluate** to start it. If multiple devices are selected when opening the Remote Software Center, the policy will start on all selected devices.

The screenshot shows the 'Compliance' tab in the Remote Software Center. On the left is a navigation menu with icons for Applications, Software Updates, Task Sequences, and Compliance (which is highlighted). The main area features a search bar at the top right with 'Refresh' and 'Evaluate' buttons. Below the search bar is a table with columns for Name, Compliance, and Devices. The table contains one row: 'Recast Demo Exploit Guard 1 / 1 compliant 1'. At the bottom left is the 'RECAST SOFTWARE' logo, and at the bottom right is a status indicator showing '0 Errors' with a refresh icon.

<input type="checkbox"/>	Name	Compliance	Devices
<input type="checkbox"/>	Recast Demo Exploit Guard 1	1 / 1 compliant	1
