Recast Software Version 5.2.2307.1103

Release Date: July 12, 2023

To upgrade to **Version 5.2.2307.1103**, download it from the Recast Portal. For instructions on updating your system to this version, see our articles on upgrading Right Click Tools, Endpoint Insights and Privilege Manager.

The Application Manager catalog is expanding!
See Recently Added Software for a list of **45 new applications** you can now deploy using Application Manager.

Features

Endpoint Insights

- You can now access additional reports via the Endpoint Insights node category pages in your Configuration Manager console:

    - Count of Computers by Warranty Range

    - Collection Details

    - Most Vulnerable Computers Online

    - Computers Without an Application

Bug Fixes

Right Click Tools

- **Web Dashboard Trends**: Fixes missing snapshots on dashboard trend graphs.

- **BitLocker Compliance**: Fixes the 'Could not find the AD object' error when attempting to use the AD BitLocker Recovery Keys tool.

- **Multi-tab Tools**: Removes the black banner that duplicates the heading for Remote Software Center, System Information, and Client Information tools.

Privilege Manager

- **Recast Agent**: Fixes a 'Managed User Not Found' error when trying to use a new activation code.

- **Temporary Account**: Fixes an incorrect expiry time calculation.

- **Target Groups**: Fixes an issue with target group client settings not being saved to the database.

- **Active Directory**: Fixes an issue with the Active Directory search function.

Recast Management Server

- **Audit Log**: Fixes missing records and formatting issues on the Audit Results page.

Recast Agent

- **Licensing**: Fixes license check failures for Agents connected to an Agent Gateway.

- **Installation**: Fixes issues and offers silent install for Recast.Agent.User.exe.
