

# Recast

## Global General Settings

Last Modified on 01.13.26

### UNC Path

On the **Environment Settings** page's **General > Advanced** tab, you can add or edit the UNC path to which all third-party application installation files will download.

### Environment Settings

ConfigMgr-Environment | Configuration Manager

**General** Deployment Processes Deployments

Basic

Advanced

\* UNC Path ⓘ

NOTE: The Recast Proxy account requires at least Modify permissions for the UNC path folder structure.
