

View Application Manager Administrator Permissions

Last Modified on 03.28.25

You can view the full set of permissions granted to users assigned an Administrator role for Application Manager.

To view Application Manager admin role permissions:

1. On the RMS **Permissions** page, under Recast Roles, click **Permissions** to the right of the Administrators role.

Recast Roles

Name	Actions
Administrators	Rename Permissions Delete
Read Site	Rename Permissions Delete
LAPS	Rename Permissions Delete
Read Only	Rename Permissions Delete
Remote Software Center	Rename Permissions Delete
Content Distribution Monitor Dashboard	Rename Permissions Delete
User	Rename Permissions Delete

2. In the **Role Permissions** window, expand the **ApplicationManager** section.
