

View the Application Catalog in RMS

Last Modified on 11.21.25

The Recast Management Server **Applications** page displays the entire Right Click Tools Patching catalog, as well as any custom applications you add. While all Recast customers with access to RMS can view the full catalog, the number of software applications available for deployment depend on your Recast licensing.

Migrating from an existing [Application Manager Legacy](#) account to [Right Click Tools Patching](#) (previously [Application Manager with RMS](#)) offers the opportunity to upgrade to the Enterprise package and access **4000+ applications**. [Learn about other differences between Right Click Tools Patching and Application Manager Legacy.](#)

The **Recast Catalog** tab displays RCT Patching-supported applications. The **My Catalog** tab lists your custom applications.
