

Pause a Deployment Process

Last Modified on 02.18.26

When you pause a deployment process, Right Click Tools Patching temporarily stops importing new versions of the selected applications. If a deployment process is running, it will be paused after completion.

Pause a single deployment process

To pause a deployment process from the **Deployment Processes** page:

1. On the Patching **Deployment Processes** page, click the ellipsis (...) to the far right of the deployment process you want to pause.
2. Select **Pause** from the drop-down menu and confirm the pause.

Deployment Processes

Deployment Process	Environment	Applications	Date Processed	Status	Total Process Time	Actions
Recast Software Recast Agent (English) (x64)	dev-environment	1	3/26/2025	Successful	0 Days	View Details, Run, Pause, Manage Settings, Delete

The status of the deployment process will change to **Paused**.

To resume a paused deployment process, click **Run** in the same drop-down menu.

To pause a deployment process from the **Deployment Process Details** page:

On the **Deployment Process Details** page, click the vertical ellipsis and choose **Pause** from the drop-down.

Deployment Process Details

Recast Software Recast Agent (English) (x64)
1 environment | 1 application

1 environment: cmcbhekp01.contoso.com

1 application: Recast Software Recast Agent (English) (x64) en-US X64

1 Deployment

Deployment Process	Duration	Release date	+1 Days	+2 Days	+3 Days	+4 Days	+5 Days	+6 Days
Recast Software Recast Agent (English) (x64)	Total: 0 Days							

1. Deploy to Co-management Eligible Devices (1) | Immediately

Pause all deployments

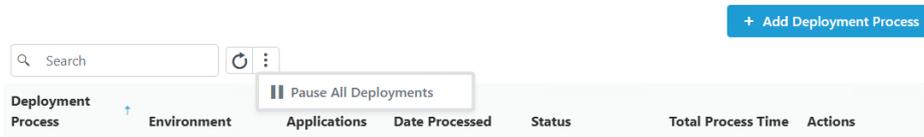

You can choose to put all deployments on hold at once.

To pause all deployments:

Recast

1. On the Patching **Deployment Processes** page, click the vertical ellipsis next to the search bar.
2. Click **Pause All Deployments**.

Deployment Processes

The screenshot shows the 'Deployment Processes' page. At the top right is a blue button labeled '+ Add Deployment Process'. Below it is a search bar with a magnifying glass icon and the text 'Search'. To the right of the search bar is a vertical ellipsis menu icon. A dropdown menu is open from this icon, showing a 'Pause All Deployments' option with a pause icon. Below the search bar is a table header with the following columns: 'Deployment Process', 'Environment', 'Applications', 'Date Processed', 'Status', 'Total Process Time', and 'Actions'.

To resume paused deployment processes, click **Resume** in the same drop-down menu.
