Upload Licenses to Recast Management Server

Last Modified on 11.21.25

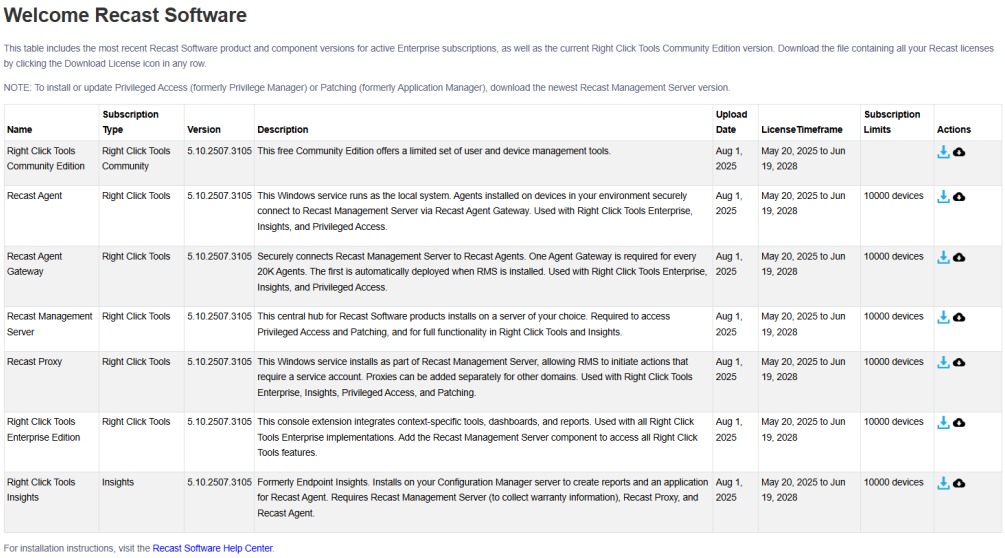

Licenses for all your Recast Software products and components are available from the Recast Portal. Downloaded licenses can then be added to the **Licenses** page in your Recast Management Server.

> As Patching and Privileged Access are integrated into your Recast Management Server, you won't see either listed separately in the Recast Portal.
> For these Right Click Tools add-ons, downloading your Recast Management Server license from the portal and uploading it on the **Licenses** page will activate Patching and/or Privileged Access functionality in RMS.

To add Recast licenses to RMS:

1. Download or copy your Recast Software product and component licenses from theRecast Portal by clicking on the cloud icon under Actions.

NOTE: All of your Recast licenses are consolidated in a single license file, meaning that you can click on the cloud icon in any row to download licenses.

Welcome Recast Software

This table includes the most recent Recast Software product and component versions for active Enterprise subscriptions, as well as the current Right Click Tools Community Edition version. Download the file containing all your Recast licenses by clicking the Download License icon in any row.

NOTE: To install or update Privileged Access (formerly Privilege Manager) or Patching (formerly Application Manager), download the newest Recast Management Server version.
