

Install Right Click Tools Enterprise

Last Modified on 2026-06-09

By implementing Right Click Tools Enterprise with Recast Management Server, you'll have access to the product's full functionality. Before downloading and installing Right Click Tools, make sure that the [system requirements](#) for its implementation are met.

Recommended installation workflow for Right Click Tools Enterprise

[Task 1: Install Right Click Tools Console Extension](#)

[Task 2: Install Recast Management Server with Recast Proxy](#)

[Task 3: Configure Recast Management Server for Right Click Tools](#)

[Task 4: Deploy Recast Agents for Right Click Tools](#)

Implementation Approaches

- You can choose to install the console extension (Task 1) initially and then install and configure your Recast Management Server (Tasks 2-4) at a later date.
- If you already have all the prerequisites for RMS in place, start by installing [Recast Management Server with Recast Proxy](#), followed by [Right Click Tools with Recast Management Server](#), before completing Tasks 3 & 4.

To install Right Click Tools along with Insights and Patching, see our [Essentials Bundle Implementation Guide](#).
