RECAST SOFTWARE

# Manage User/Group Scopes

Last Modified on 06.10.24

You can add, edit, or remove scopes applied to users or user groups on the **Permissions** page in your Recast Management Server.

## Add or Edit a User or User Group Scope

To add or edit a scope for an existing user or group:

1. On the **Permissions** page, click the Edit icon to the right of the user or group.

2. Under Assigned Roles, select a role, such as Administrators.

3. Enable the **Limit this user to specific objects** option.

4. Select the objects included within the users' scope.

5. Select a **Service Connection**.

6. Click **Save**.

## Remove a User or User Group Scope

To remove a user or group scope:

1. On the **Permissions** page, click the Edit icon to the right of the user.

2. Under Assigned Roles, select a role.

3. Disable the **Limit this user to specific objects** option.

4. Click **Save**.
