Recast Software Version 5.7.2410.1403

Last Modified on 2026-08-25

Release Date: October 16, 2024

Version 5.7.2410.1403 introduces an Intune integration for Application Manager in your Recast Management Server. This release also includes bug fixes for Right Click Tools and Endpoint Insights.

Upgrade to our latest release by downloading it from the Recast Portal. For instructions on installing this version, see our articles on upgrading Right Click Tools, Endpoint Insights, Privilege Manager, and Application Manager.

Features

Application Manager

Application Manager for Intune functionality is now integrated into Recast Software infrastructure!

- For prerequisites, see Application Manager System Requirements and Recast Proxy Permissions.
- To learn how to add an Intune environment in Application Manager, see Add an Environment.
- For details on deploying applications to Intune, see Add a Deployment Process.
- To configure global settings specific to Intune, see Global Deployment Process Settings, and Global Deployment Settings.

Bug Fixes

Right Click Tools

Entra ID BitLocker Tool: Fixes an issue causing the tool to crash when the user does not have permission to access Entra ID BitLocker recovery keys. (Customer-Reported Bug 63024)

Endpoint Insights

Microsoft Office 365 Report: Adds an '(all)' option to simplify selections and prevent report processing errors. (Customer-Reported Bug 63428)
