RECAST SOFTWARE

Browser Extension Requirements & Recommendations

Last Modified on 04.16.25

Requirements and recommendations for installing and running the Enterprise Edition of Right Click Tools using the Right Click Tools Browser Extension:

- Version 5.8.2501 or later of the Right Click Tools Enterprise Edition installed on the device from which you will run Right Click Tools actions (required)

  NOTE: If you are installing Right Click Tools on a device where no Microsoft Configuration Manager console is present, you'll need to provide ConfigMgr site information during or after installation.

- Version 5.8.2501 or later of Recast Management Server installed (recommended)
  - Right Click Tools connected to Recast Management Server (recommended)
  - Recast Agent installed on the device where you want to run actions, with that device connected to the Recast Management Server (recommended)
- Right Click Tools browser extension added (required)
  - Right Click Tools for Intune in Edge Add-ons Store
  - Right Click Tools for Intune in Chrome Web Store
