

Upgrade to Right Click Tools Enterprise Standalone

Last Modified on 03.10.26

To access the features of the Standalone Edition of Right Click Tools Enterprise, there's no need to install additional Recast components. You'll just have to download your Enterprise license.

Download Your Enterprise License

You can download or copy licenses for your Recast Software products and components from the Recast Portal.

To locate your Recast licenses:

1. Log into the [Recast Portal](#) using your account credentials.
2. Click on the Download Licenses icon (the cloud) in any row to download a .zip file that contains all of your Recast licenses.

NOTE: For the Right Click Tools Community Edition, the Download and Download Licenses icons will only appear in the Community Edition row.

Welcome Recast Software

This table includes the most recent Recast Software product and component versions for active Enterprise subscriptions, as well as the current Right Click Tools Community Edition version. Download the file containing all your Recast licenses by clicking the Download License icon in any row.

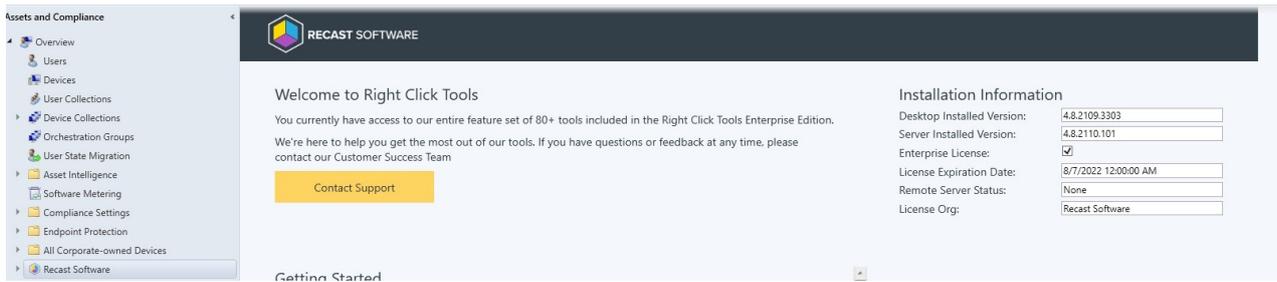

NOTE: To install or update Privileged Access (formerly Privilege Manager) or Patching (formerly Application Manager), download the newest Recast Management Server version.

Requires Recast Management Server (to collect warranty information), Recast Proxy, and Recast Agent.	Aug 1, 2025	May 20, 2025 to Jun 19, 2028	10000 devices	 

For installation instructions, visit the [Recast Software Help Center](#).

If your product licenses are not available via the Recast Portal, contact [Recast Support](#) or your CSM to have license files sent to you.

The **Installation Information** section will indicate that you have an Enterprise License and display its expiration date. For Right Click Tools Standalone, the **Remote Server Status** should display as 'None'.

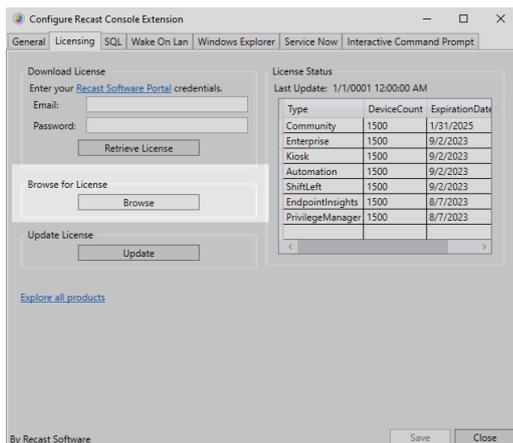

Computers with no internet connection

If the computer where the Configuration Manager is installed is without internet, you can manually download the license to a location accessible from the computer with no internet connection. You can then browse for the downloaded license via the Configure Recast Console Extension or add it manually to the Licenses directory.

To browse for a downloaded license in Configure Recast Console Extension:

1. From the Windows Start menu, open **Configure Recast Console Extension**.
2. Click the **Licensing** tab.
3. In the Browse for License section, click **Browse** to open a dialog that links to the downloaded file.

To manually add a downloaded license to the Licenses directory:

1. After downloading the license from the [Recast Community Portal](#), copy the file to `c:\ProgramData\Recast Software\Licenses`.
2. Restart the Configuration Manager console where Right Click Tools is installed.
