

Uninstall Right Click Tools Version

Last Modified on 03.10.26

You can revert to a previous v5 release of Right Click Tools by downloading an archived release and installing it over the more recent software version.

To download an archived release:

1. Log into the [Recast Customer Portal](#).
 2. On the Downloads page, select the **Archived Releases** tab.
 3. Click the **Download** button for the software version you want to install.
