

# v5.9 Releases

Last Modified on 05.30.25

## Recast Software Version 5.9.2505.2307

Release Date: May 23, 2025

**Version 5.9.2505.2307** replaces Version [5.9.2505.2003](#) in the [Recast Portal](#). This version resolves separate issues that were preventing Privilege Manager and the new agent re-enrollment feature from functioning properly.

**Version 5.9.2505.2307** includes new features, design improvements, and bug fixes. Upgrade to this Recast Software release by downloading it from the [Recast Portal](#). Instructions for installing this version can be found in our articles on updating [Right Click Tools](#), [Endpoint Insights](#), [Privilege Manager](#), and [Application Manager](#).

## Features

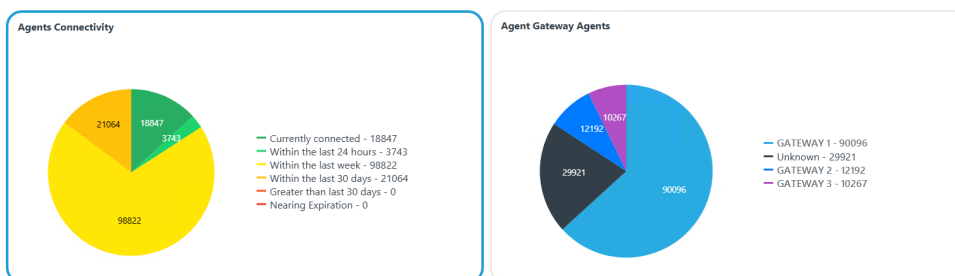

This release includes new features developed during our Spring Hackathon, several of which deliver on requests submitted to our [Ideas Portal](#).

## Easier Agent Management, Re-enrollment & Cleanup

The new Agent Management web dashboard uncomplicates the task of overseeing communications between your agents and Recast Management Server. Find out when an agent last connected to an agent gateway, and the specific gateway to which an agent connects, to pinpoint connectivity issues.

To learn more, see [Agent Management Dashboard](#).

### Recast Agents

You'll also find agent connection details on the [Recast Agents](#) page, where you'll now see faster page loading speeds when there are many agents.

Behind the scenes, we've added automatic [agent re-enrollment](#), as well as an [agent cleanup process](#) that automatically removes inactive and duplicate agents, which means less time spent manually managing agents that fail to communicate with RMS.

## New Right Click Tools

[Retrieve All BitLocker Keys](#): Search all your configured BitLocker recovery key locations with a single Enterprise tool

[Get User Profile Size](#): View user profile sizes so you can identify those worth removing to regain space

[Disable or Enable Devices in Active Directory](#): A less-permanent alternative to deleting devices you may need to re-enable later

[View Disk Space Details](#): See where a shortage of free disk space might cause software deployment or patching issues

[Open Event Viewer](#): Access a remote Windows Event Viewer session straight from your Console Tools

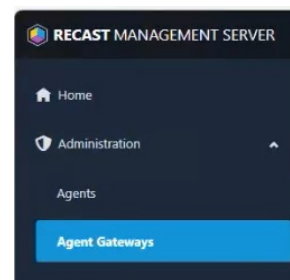

For a video walkthrough of new tools available in the Community Edition, see [New Community Right Click Tools - May 2025](#) on our YouTube channel.

## Recast Management Server Design Updates

You'll notice some visual design changes in RMS. We've adjusted the look of a number of user interface elements for quick recognition and improved usability.

### Navigation panel updates

- A new Recast Management Server wordmark aligns with our branding
- When you select a menu item:
  - The text is bolded for differentiation
  - The item is highlighted with a blue bar (rather than a grey one) to make the current selection more obvious at a glance
- Chevrons (^) are smaller, making them less conspicuous

### RMS page updates

- Edit and Delete icons are now displayed in greyscale to reduce their prominence
- Header and footer rows now have a grey (rather than blue) background to allow strategic color use on buttons and symbols to stand out
- Column headings are bolded for improved legibility and differentiation from text within the table

# Bug Fixes

## Recast Management Server

**Installation:** Clicking 'Skip SQL Connection Test' during installation now stops all SQL connection attempts. (Customer-Reported Bug 68191)

**Discovery Sync:**

- Running a sync no longer produces a 'String or binary data would be truncated in table' error. (Customer-Reported Bug 72409)
- Running a sync for an active directory domain with a deeply nested hierarchy no longer produces a timeout error.

**Task Scheduler:** The Recast Management Server now communicates with the Task Scheduler Agent to determine whether cleanup tasks exist.

## Right Click Tools

**Installation:** The Right Click Tools installer now accepts a Community license. (Customer-Reported Bug 72498)

**Recast Builder:** List input parameters now pass successfully to subsequent actions. (Customer-Reported Bug 14471)

**Kiosk Manager:** You can now apply a Kiosk Profile via a Recast Agent route without seeing a 'KeyNotFoundException' error.

## Privilege Manager

**Agent Authentication:** A resolved Recast Agent authentication issue no longer prevents Privilege Manager from functioning correctly.

## Application Manager

**Integrations:** Deleting an integration now properly deletes all configuration associated with the integration. There's also a new confirmation dialog when deleting an integration.

---

# Recast Software Version 5.9.2504.1505

Release Date: April 16, 2025

**Version 5.9.2504.1505** includes bug fixes. Upgrade to this Recast Software release by downloading it from the [Recast Portal](#). Instructions for installing this version can be found in our articles on updating [Right Click Tools](#), [Endpoint Insights](#), [Privilege Manager](#), and [Application Manager](#).

# Bug Fixes

# Recast Management Server

**Recast Agent:** Fixes an issue with the Security Identifier (SID) being populated incorrectly when the Recast Agent is not connected to a domain controller. (Customer-Reported Bug 71383)

**RMS:** Fixes Recast Management Server crashes resulting from an unhandled `NullReferenceException`. (Customer-Reported Bug 6997)

**Service Connection Data Sync:** Fixes a timeout error when attempting to run a discovery sync for a service connection that includes a long AD OU name. (Customer-Reported Bug 71092)

# Privilege Manager

**Groups:** Fixes Entra ID group membership queries that return other items than group entities. (Customer-Reported Bug 72002)

# Application Manager

**Supersedence:** Fixes an issue with the Enterprise catalog where application version supersedence rules do not work correctly. (Customer-Reported Bug 71599)

## Announcing Application Workspace 4.3!

**New Look & Feel:** Updated branding for a fresher, more modern user interface

**Microsoft Teams Integration:** Access to applications and resources from within Teams

**Enhanced Diagnostics Report:** Faster troubleshooting with detailed insights

For more of what's new in this version, see [Introducing Application Workspace 4.3](#).

For release notes, and to download this release, go to the [Application Workspace Downloads](#) page.

# Recast Software Version 5.9.2503.1805

Release Date: March 19, 2025

**Version 5.9.2503.1805** includes a new feature and bug fixes. Upgrade to this Recast Software release by downloading it from the [Recast Portal](#). For instructions on updating to this version, see our articles on upgrading [Right Click Tools](#), [Endpoint Insights](#), and [Application Manager](#).

**UPGRADE PATH:** If you are currently running v5.4.2402.1403 or earlier, you must complete an [intermediary upgrade](#) before installing this release.

## New Feature

Run Right Click Tools on a device with no Configuration Manager console

You can now install Right Click Tools, add the Right Click Tools browser extension, and run actions from within the Intune Admin Center—from a device with no Configuration Manager console installed.

See [Install Right Click Tools Console Extension](#).

## Bug Fixes

### Recast Management Server

**Limiting Rules:** Fixes database migration errors where limiting rules (previously known as scopes) are set up for a Configuration Manager collection or an Active Directory OU or group. (Customer-Reported Bug 70914)

**Recast Agent:** Fixes an issue where attempting to run an action via the Fast Channel returns a Status of 'Not found'.

### Right Click Tools

**BitLocker Console Dashboard:** Fixes an issue with devices incorrectly returning 'No Key Found' when running the **ConfigMgr BitLocker Recovery Keys** action. (Customer-Reported Bug 44578)

**Kiosk Manager:** Fixes an error applying kiosk profiles when the system has a Recast Agent and actions are run over the Recast Proxy route. (Customer-Reported Bug 61644)

### Application Manager

#### Deployment Process Settings:

- Fixes the **Device restart behaviour** setting for Configuration Manager deployment processes. (Customer-Reported Bug 61644)
- Fixes the **Reset all to default** setting for Intune deployment processes.

---

## Recast Software Version 5.9.2502.2105

Release Date: February 24, 2025

**Version 5.9.2502.2105** includes new features and bug fixes. Upgrade to this Recast Software release by downloading it from our updated [Recast Portal](#). For instructions on updating to this version, see our articles on upgrading [Right Click Tools](#), [Endpoint Insights](#), [Privilege Manager](#), and [Application Manager](#).

**UPGRADE PATH:** If you are currently running v5.4.2402.1403 or earlier, you must complete an [intermediary upgrade](#) before installing this release.

## New Features

# Application Manager

## Introducing Support for Custom Applications!

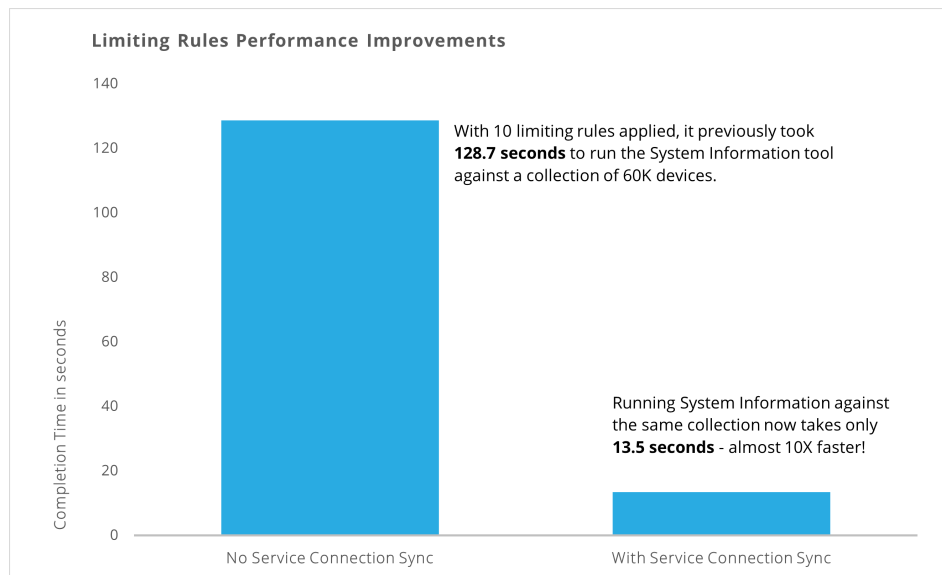

You can now add custom applications and include them in deployment processes like other AM-supported applications. See [Add a Custom Application](#).

# Recast Management Server

## Service Connection Synchronization

Your Recast Management Server now retrieves user and device data from Configuration Manager and Active Directory service connections according to a synchronization schedule.

Customers who apply several [limiting rules](#) (previously known as scopes) for routes or users will see the greatest performance improvements when running Right Click Tools actions.

To learn about this feature, see:

- [Synchronize Service Connection Data](#)
- [Discovery Sync Logs](#)

**NOTE:** The read-only RMS **Scopes** page will disappear with this release, as will the **Refresh Interval** setting for repopulating scopes on the **Permissions** page. As before, you can view, modify and remove your limiting rules (previously known as scopes) on the RMS [Permissions](#) and [Routes](#) pages.

## Custom Role Templates Available in RMS

We've made it easier to set up custom roles and permissions in your Recast Management Server. Previously, you'd download the PowerShell script for three custom roles from our Help site to add them in RMS. Now the Read-Only, Remote Software Center, and Content Distribution Monitor Dashboard roles are available by default on the RMS **Permissions** page.

To learn more, see [Custom Role Templates for Right Click Tools](#).

# Right Click Tools

## Right Click Tools Browser Extension Available from Google Chrome

The Right Click Tools browser extension is now available from the Google Chrome web store. The browser extension works with the Enterprise or Community Editions of Right Click Tools, allowing you to run familiar tools and actions from within the Microsoft Intune Admin Center.

See:

- [Install Browser Extension for Right Click Tools Enterprise Edition](#)
- [Install Browser Extension for Right Click Tools Community Edition](#)

## Bug Fixes

### Recast Management Server

**Version Upgrades:** Fixes an issue where updating the Recast Management Server version reset the RMS port to its default. (Customer-Reported Bug 66804)

### Privilege Manager

**Group Rules:** Fixes an issue with group validity rules being removed rather than respected. (Customer-Reported Bug 66804)

**Entra ID Search:** Fixes an issue with Entra ID searches returning incomplete results or inaccurate values.

## Application Manager

### Applications

- Fixes an issue with per-user applications being installed for all users logging into the device.
- Fixes a side panel that closes prematurely when attempting to select applications.
- Adds missing special character support in the application catalog search.

**Environment:** Fixes an issue where inherited environment settings do not display deployment processes.

**Service Connections:** Fixes an issue where deleting a service connection hides related environment information.
