

RECAST SOFTWARE

v5.9 Releases

Last Modified on 03.19.25

Recast Software Version 5.9.2503.1805

Release Date: March 19, 2025

Version 5.9.2503.1805 includes a new feature and bug fixes. Upgrade to this Recast Software release by downloading it from the [Recast Portal](#). For instructions on updating to this version, see our articles on upgrading [Right Click Tools](#), [Endpoint Insights](#), and [Application Manager](#).

UPGRADE PATH: If you are currently running v5.4.2402.1403 or earlier, you must complete an [intermediary upgrade](#) before installing this release.

New Feature

Right Click Tools

Run Right Click Tools on a device with no Configuration Manager console

You can now install Right Click Tools, add the Right Click Tools browser extension, and run actions from within the Intune Admin Center—from a device with no Configuration Manager console installed.

See [Install Right Click Tools Console Extension](#).

Bug Fixes

Recast Management Server

Limiting Rules: Fixes database migration errors where limiting rules (previously known as scopes) are set up for a Configuration Manager collection or an Active Directory OU or group. (Customer-Reported Bug 70914)

Recast Agent: Fixes an issue where attempting to run an action via the Fast Channel returns a Status of 'Not found'.

Right Click Tools

BitLocker Console Dashboard: Fixes an issue with devices incorrectly returning 'No Key Found' when running the **ConfigMgr BitLocker Recovery Keys** action. (Customer-Reported Bug 44578)

Kiosk Manager: Fixes an error applying kiosk profiles when the system has a Recast Agent and actions are run over the Recast Proxy route. (Customer-Reported Bug 61644)

Application Manager

Deployment Process Settings:

- Fixes the **Device restart behavior** setting for Configuration Manager deployment processes. (Customer-Reported Bug 61644)
 - Fixes the **Reset all to default** setting for Intune deployment processes.
-

Recast Software Version 5.9.2502.2105

Release Date: February 24, 2025

Version 5.9.2502.2105 includes new features and bug fixes. Upgrade to this Recast Software release by downloading it from our updated [Recast Portal](#). For instructions on updating to this version, see our articles on upgrading [Right Click Tools](#), [Endpoint Insights](#), [Privilege Manager](#), and [Application Manager](#).

UPGRADE PATH: If you are currently running v5.4.2402.1403 or earlier, you must complete an [intermediary upgrade](#) before installing this release.

New Features

Application Manager

Introducing Support for Custom Applications!

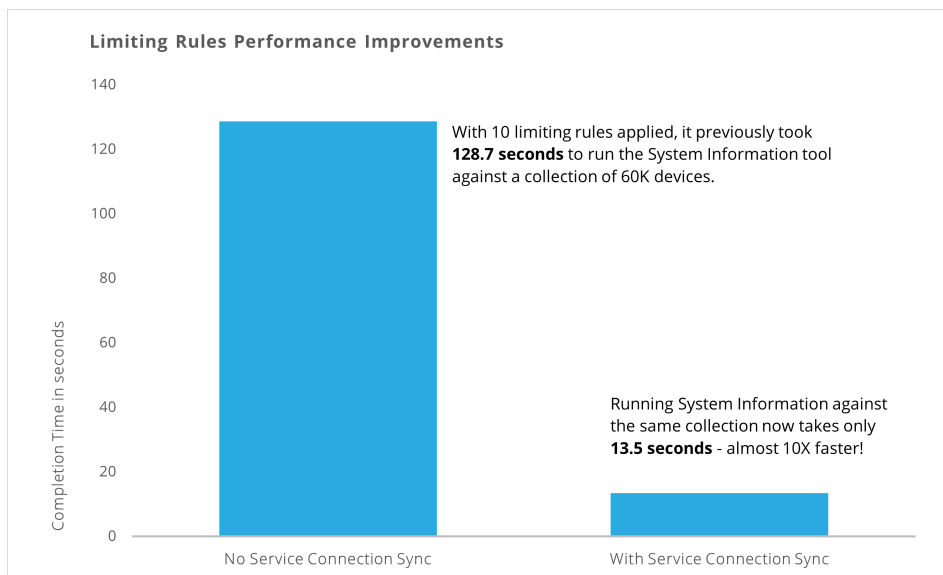

You can now add custom applications and include them in deployment processes like other AM-supported applications. See [Add a Custom Application](#).

Recast Management Server

Service Connection Synchronization

Your Recast Management Server now retrieves user and device data from Configuration Manager and Active Directory service connections according to a synchronization schedule.

Customers who apply several [limiting rules](#) (previously known as scopes) for routes or users will see the greatest performance improvements when running Right Click Tools actions.

To learn about this feature, see:

- [Synchronize Service Connection Data](#)
- [Discovery Sync Logs](#)

NOTE: The read-only RMS **Scopes** page will disappear with this release, as will the **Refresh Interval** setting for repopulating scopes on the **Permissions** page. As before, you can view, modify and remove your limiting rules (previously known as scopes) on the RMS [Permissions](#) and [Routes](#) pages.

Custom Role Templates Available in RMS

We've made it easier to set up custom roles and permissions in your Recast Management Server. Previously, you'd download the PowerShell script for three custom roles from our Help site to add them in RMS. Now the Read-Only, Remote Software Center, and Content Distribution Monitor Dashboard roles are available by default on the RMS **Permissions** page.

To learn more, see [Custom Role Templates for Right Click Tools](#).

Right Click Tools

Right Click Tools Browser Extension Available from Google Chrome

The Right Click Tools browser extension is now available from the Google Chrome web store. The browser extension works with the Enterprise or Community Editions of Right Click Tools, allowing you to run familiar tools and actions from within the Microsoft Intune Admin Center.

See:

- [Install Browser Extension for Right Click Tools Enterprise Edition](#)
- [Install Browser Extension for Right Click Tools Community Edition](#)

Bug Fixes

Recast Management Server

Version Upgrades: Fixes an issue where updating the Recast Management Server version reset the RMS port to its default. (Customer-Reported Bug 66804)

Privilege Manager

Group Rules: Fixes an issue with group validity rules being removed rather than respected. (Customer-Reported Bug 66804)

Entra ID Search: Fixes an issue with Entra ID searches returning incomplete results or inaccurate values.

Application Manager

Applications

- Fixes an issue with per-user applications being installed for all users logging into the device.
- Fixes a side panel that closes prematurely when attempting to select applications.
- Adds missing special character support in the application catalog search.

Environment: Fixes an issue where inherited environment settings do not display deployment processes.

Service Connections: Fixes an issue where deleting a service connection hides related environment information.
