

View or Edit User Role Permissions

Last Modified on 12.12.25

To view or edit the permissions associated with a Recast role:

1. Under **Recast Roles**, click **Permissions** to the right of the role.

Recast Roles

Name		Actions		
Administrators		Rename	Permissions	Delete
Read Site		Rename	Permissions	Delete
LAPS		Rename	Permissions	Delete
ReadOnly		Rename	Permissions	Delete
RemoteSoftwareCenter		Rename	Permissions	Delete
ContentDistributionMonitorDashboard		Rename	Permissions	Delete
User		Rename	Permissions	Delete
SI Pre		Rename	Permissions	Delete

2. In the **Role Permissions** window that opens, expand categories to view or edit individual permissions.
